## EXPERIENCE AND HIGH TECHNOLOGY FOR YOUR SURFACE DRESSINGS

Mounted on 4, 6 or 8 wheeler truck

### A SPRAYING OF QUALITY FOR YOUR SURFACE DRESSING

- Telescopic spray bar made of 3 arms : width from 3.2 à 4.4 m ; dosage from 0.2 to 2.5 L/m<sup>2</sup>
- Stainless steel pneumatic jets, removable, 100 mm centerline for a triple overlap on the ground
- 3 spraying mode : fixed ; jet by jet ; linear
- Automatic switch between 1 jet upon 2 and 1 jet upon 3 for low dosages
- Hand lance
- Optional : border jets ; remote control ; additive device ; shock sensors ; lime milk

### TANK / HEATING / BINDER DISTRIBUTION

- Elliptical tank for emulsion from 6 000 to 18 000 L
- Direct heating with automatic fuel burner
- Binder distribution (pump, filter, valves...) with access from the ground
- 50 m<sup>3</sup>/h heated binder pump
- Pneumatic valves block (BVX) for binder distribution
- Optional : overnight heating ; spray bar thermic fluid heating

### SECURITY / MAINTENANCE / RESPECT OF THE ENVIRONMENT

- All spraying and cleaning operations managed from the cab
- Filling dome access with secured platform
- Care and maintenance designed from the conception of the machine
- Elements positioned consistently and all accessible from the ground
- Automatic cleaning device without any binder rejection on the ground
- Jobs & consumption follow up
- Rearview camera

### COMPUTER NEW GENERATION : CLEV'ER

- Computer Clev'ER in cab : tablet, easy navigation, ergonomic control with touch screen
- Binder dosage programming
- Binder pump automatic regulation
- Truck engine regulation for optimum work speed
- Individual jet On/Off by touch screen
- Connected device for achieving and monitoring of job data
